INTRODUCTION

This volume continues the publication of the records of the descendants of Samuel Tingley. This project was started by my mother, Mrs. Marian M. Frye 10-03079-02, and without her research these books could not have been published. With the assistance of descendants in updating her notes, I am attempting to complete the publication of the records which she collected.

Any errors or additional information regarding the records in this volume or in previous volumes may be sent to Harold E. Frye, 3757 NW 53rd Road, Gainesville, FL 32653-0878, U.S.A. E-mail to afn03736@afn.org or to hfrye@juno.com .

Readers of this book may be interested in the *TINGLEYS UNITED ASSOCIATION*. At this time, membership dues are $5 per year or $35 for a Life Membership. T-U News is published twice a year. Please note that I have no connection with T-U except as a member. Currently, the T-U President is Mr. Rollin I. Tingley, East Lake Road, RR 2 Box 126, New Milford, PA 18834 (pwtrit@epix.net). The T-U Secretary-Treasurer (to whom dues should be sent) is Mr. Ted Tingley, 210 Elklore Avenue, Estill Springs, TN 37330 (ttingley@edge.net). The *TINGLEYS UNITED* web page is at http://www.tingley.org . My web page is at http://www.afn.org/~afn03736, and http://freepages.genealogy.rootsweb.com/~tingley .

10-00017-05 RUTH ELIZABETH PENDLETON-RUSSELL[11] (Alice[10], Andrew[9], Charles[8], Benjamin[7], Benjamin[6], Samuel[5], Samuel[4], Samuel[3], Samuel[2], Palmer[1]), 1585 Jamaica St., Titusville, FL 32780-5407, born May 1, 1921 at Wrentham, MA; married May 4, 1940 at Attleboro, MA, John Alfred, son of John (nmn) and Susan Catherine (Brookman) Russell, of Central Falls, RI, born Apr. 1, 1918 at Central Falls, RI. John's mother was b. Oct. 22, 1886 at Liverpool, England, d. Jan. 24, 1964 at Pawtucket, RI, heart attack; his father was b. Jan. 25, 1887 at Dunfermline, Scotland, d. Sep. 7, 1967 at Houston, TX, stroke. Ruth is a Registered Nurse; John, a retired Contract Administrator at John F. Kennedy Space Center.

"John A. Russell served in the US Navy as a Fireman 1st Class during W.W. II. He was a crew member aboard the USS Alcona assigned to the Seventh Fleet under Admiral Kincaid in the Pacific Theater of Operations. He received medals for the American Campaign, Asiatic-Pacific Campaign, World War II Victory Medal and the Philippine Liberation Ribbon. He was employed in the Civil Service from 1940 (the year we were married) until his retirement, in June 1977, from his last position as a Contract Administrator for NASA. While he worked at the Kennedy Space Center, it was exciting to be a part of NASA's progress from sub-orbital launches with monkeys aboard to landing men on the moon and the development of the Space Shuttle. We are able to watch the launches from our backyard. The rockets leaving the launch pads are awesome sights indeed. The percussion from the engines' ignition vibrates the house, so we quite regularly experience the sensation of 'little earthquakes'.

"I am a Registered Nurse, having worked in a nursing home and on the Medical-Surgical Unit of Jess Parrish Mem. Hosp. in Titusville. I retired in 1989 from my last position as an Industrial Nurse at McDonnel Douglas Astronautics, also in Titusville. I found the nursing profession both challenging and rewarding. I am a member of the Nipmuc Indian Tribe, Chaubunagungamaug Band, Tribal Number 427. My Indian name is 'Southern Star'.

"I've had many interests and hobbies during my life, ranging from carpentry to fine needlework. Sort of 'Jack of all trades - master of none'. We've moved around the country a lot, with the Navy in Newport, RI, the Air Force in Houston, TX, and NASA in FL, and I have lost touch with many of the relatives. My husband, John, and I have had our ups and downs but generally have had a happy and fulfilled life. We celebrated our Golden Wedding Anniversary May 4, 1990. We've improved our various homes as best we could. We've raised gardens, horses, pigeons and various dogs and cats, etc. However, our greatest joy in life came from our three children. We now find time to get a break from housework and yardwork to do a little leisurely traveling in our Winnebago motor home. Life is not quite so busy now and our pace has slowed somewhat."[803]

Bertha died in 1958 at Gonic, NH. Raymond was a builder of fine homes.

From an article sent by Edythe's sister, Bertha McFarland: Dr. Edythe was one of six professors of the Univ. of New Hampshire who were awarded faculty emeritus status to take effect upon their retirement on July 1, 1966. Having this honorary status will enable Mrs. Edythe T. Richardson of Gonic to maintain an affiliation with the Univ. in retired life, as she will become Professor Emeritus of Zoology. She has served on the UNH faculty for 44 years. Having received her B.S. degree from UNH in 1922, she earned her Master's degree there in 1924 and her research work has produced an ecological survey of New Hampshire's Great Bay and a study of mud-bottom fauna in the Mount Desert Island area in Maine.[801]

Jeremiah's father d. Dec. 1903; his mother d. 1896; both are buried in St. Mary Cem. at Pawtucket, RI. James McFarland served in the Civil War on the MA USS Missouri.

Bertha was born at the old ancestral homestead of her grandfather Cyrus Bullard of the Sherborn Medfield-Bullards. It was the old Stage Coach Inn, built in 1720. A Moses Richardson operated it in 1755 and here at this

lovely old house Washington stopped in June 1775, in the time of the Revolutionary War. The tavern floor had a great many gun butt marks on the wide pine boards where they stood the guns. Many soldiers found a night's lodging in the great ancient garret.[803]

Elvina lives at 131 Park Meadows Blvd., Lethbridge, Alta. T1H 4J1. Lewis was Chief Engineer at C.D.A. Research Station. The fol-

lowing is from the Research Station news release at the time of Lewis' death:

"On behalf of the Research Station, Lewis McLaughlin coordinated construction of the Center with federal Public Works, the architect, and the contractors. His former colleagues often remark that "Lew had all of the pieces of this complex project organized in his mind. He saved us many problems and many thousands of dollars.

"Often on weekends or in the evening, Lewis was seen walking about the new complex with his pipe and his dog. When the Center was completed and operating in 1977, the federal government awarded Lewis McLaughlin the Queen's Jubilee Medal in recognition of his dedication and achievements.

"Over the years, Lewis made a habit of learning all he could about any one subject. As a result, he accumulated some 12 certificates and diplomas related to stationary engineering, such as refrigeration, air conditioning, heating, and instrumentation.

"Lewis McLaughlin grew up in St. Stephen, New Brunswick. During World War II, he served on merchant ships in the Atlantic.

"His 23 years of service with the federal government began at Gagetown, N.B., with the Department of National Defense, before transferring to the Agriculture Canada Research Station at Fredericton, N.B. In 1963, he came to the Swift Current Research Station as chief engineer to help with the construction of their new office and laboratory building.

"Six years ago, he was appointed coordinator for the new complex being planned at Lethbridge. Later he became Supervisor of Buildings and Properties at the Lethbridge Research Station...."[803]

His older brother Robert was one of the nine partners who left Attleboro in April 1790 seeking to establish new homes on new lands farther west. Having found a good spring in a pleasant valley above the great bend in the Susquehanna River in May of that year, they bought land and created a new community which they first named "Nine-Partners", PA. It was later renamed "Harford". Ezra returned to Attleboro to marry and return with his bride to Harford. After Lucy's death Ezra moved to Weedsport, Cayuga Co., NY, probably in 1814, where he bought land. He remarried after 1816 and was again a widower before his death and before he made his will on Jan. 5, 1838. The will was proved in the Surrogate's Court at Auburn, NY Feb. 6, 1838. At the time of his death he was a resident of Cato in Cayuga Co. His will lists the names of ten children, five born to each of his two wives.

821. This family, or a descendant, was contacted, but they declined to provide data.

Two types of numbers will be found in this book. One, the family number, consisting of seven digits. An example 11-00851, where the 11 indicates that the family is of the eleventh generation and the 00851 indicates that it is the 851st family of that generation. The second type of number, the number of an individual as a child, consists of nine digits. An example is 11-00851-01, where the 11 indicates that the individual is a child of an 11th generation family, the 0851 indicates that the individual is a child of the 851st family of that generation, and the 01 indicates that the individual is the first child of that family. Birth dates will indicate whether or not the correct sequence of the children is known or was known (no birthdate, or dates not in sequence, sequence was probably not known when listed).

The arrangement of the book is by family numbers. Immediately preceding each family, in the center of the line will be found the family number corresponding to that family. At the beginning of the paragraph describing a family will be found the number of the head of the family as a child. This enables one to trace a line back to the beginning, that is, back to Palmer.

Under each family those children appearing elsewhere as heads of families will have, following their birthdate, the family number of the family of which they are the head. If married to another Tingley descendant, the child may be shown as the spouse rather than as the head of that family. This enables one to trace the descendants of an individual.

The numbers appearing in the index are family numbers. It will be noted that some of them have a prefix "S". Such a number following an individual's name in the index indicates that person is a spouse of a Tingley descendant. Thus WATTS, Debra Lee S11-00851 is the wife of Granville Milroy Robbins, Jr. 10-00475-01 when he became head of family 11-00851. She is found in the paragraph just below the family number and before children are listed in the family.

When the number following an individual's name in the index has no "S" prefix that number is a family number under which the individual will be listed as a child. Thus, ROBBINS, Christina Lee 11-00851 is found in the 11th generation, 851st family and is the first child shown. The number following her name is 12-01196, which will appear in a future volume. If no number is shown, she was not married (or it was not known) at the time the book went to press.

To trace one's own line back to the beginning, that is, back to Palmer, one should start with his own name and the number which follows his name in the index. For example, as above, 11-00851 following name ROBBINS, Joshua Eugene, in index will be found in the 11th generation, 851st family and is the third child. His father, at the beginning of the paragraph for family 11-00851 has a number preceding his name 10-00475-01. This says that he was the first child in the 475th family of the tenth generation, Granville Milroy Robbins. By looking up the 475th family of the tenth gener-

ation (Vol. V) it will be found that Granville Milroy is the 1st child and the number after his name is 11-00851. Now to trace back farther repeat this process. For finding relationships between individuals see instructions in Volume I, page 518.

Adopted children and their lines are carried in italics to distinguish them from those of Tingley blood.

When a person was known by his middle name rather than his first name, that name is underlined.
